The heart of the Auriga philosophy looks upon cycles of nature and the moon as inspiration.

By tapping into the celestial rhythms, an equilibrium of body, mind and spirit is achieved. Auriga's bespoke and holistic therapies are shaped to ground thyself in a place of healing and regeneration, amidst the changing pace of our modern lifestyles.

Auriga Signature Moon Ritual

3 hrs | 650

Since time immemorial, it is believed that the different moon phases impact the body in very specific ways. The New Moon is the time for renewal and introspection, while the Full Moon is when one's full potential is achieved.

Attune your body and tap into the rhythm of the moon's natural cycle to awaken a mindful inner being. To find balance within, we must embrace and realign ourselves in harmony with the universal rhythm. If you wish, the treatments received will be aligned with the current lunar phase for optimal benefits and a profound holistic experience.

New Moon Ritual | Renewal & Reflection

The New Moon is the time for renewal and introspection. It is a phase of exploring ways to achieve higher self-potential and setting new intentions. As energy levels tend to be sluggish, this treatment was designed to re-invigorate and revive the senses.

The signature ritual commences with a salt scrub and body wrap that applies invigorating strokes to enliven and moisturise your skin. An energising new moon massage using a copper gua sha tool and cupping techniques to further release tension follows after. Conclude the experience with a facial that incorporates acupressure massage to awaken the lymphatic system, lift and firm your skin.

Full Moon Ritual | Cleansing & Grounding

The Full Moon is when the moon is at its peak luminescence, where it is as round and bright as can be. As energy levels tend to run high, a ritual to calm your mind and restore balance is recommended.

Your experience commences with a soothing body exfoliation and wrap followed by the signature full moon massage to soothe your nervous system, and a facial experience to cleanse and protect your skin from environmental stressors, boost circulation, and brighten the skin.
