reflecting various facets of Singapore's local environment, culture and heritage. Helmed by the effusive Capella Culturists, these activities are designed to inspire, engage, and entertain through a myriad of memorable moments and experiences.

and restaurants serving Peranakan cuisine, before ending off the experience with a taste of a few local nyonya kuehs and a spicy Straits Chinese noodle soup called the Katong laksa.

The Untamed Paths

The one and a half hour guided experience is as much an engaging adventure as it is an educational one. Explore ankle-deep into the intertidal zone, an area of the coast caught between two worlds – submerged during high tides and exposed during low tides. It is rife with hidden life and a whole array of marine ecosystems, often invisible to the unsuspecting eye. Besides discovering the animals that support our marine ecosystem, this intertidal exploration aims to equip guests with a greater appreciation and knowledge of marine ecology and coastal geology, identify different marine life and appreciate the different classifications from echinoderms to cephalopods.
